

Secure Fax Solutions

Solution Overview

MIX Networks® delivers an enterprise-grade Internet Fax platform. This solution modernizes fax communications while preserving reliability, security, and compliance.

Delivery Options

Cloud Fax

- ✓ Fully hosted, web-based fax platform accessible from any Internet-connected device.

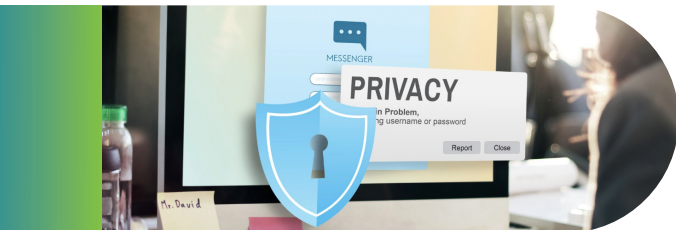

On-Premise ATA

- ✓ Connects traditional fax machines securely over IP.

Hybrid Model

- ✓ Combines cloud management with local infrastructure.

Security & HIPAA Compliance

The platform uses enterprise-grade security protocols to protect sensitive healthcare and business data.

- ✓ Secure web portals and authentication controls
- ✓ Protected document storage and transfers
- ✓ Audit-ready reporting and delivery confirmation

HIPAA Support

Supports compliance with HIPAA technical safeguards when configured with proper access controls and retention policies.

Reliability & Support

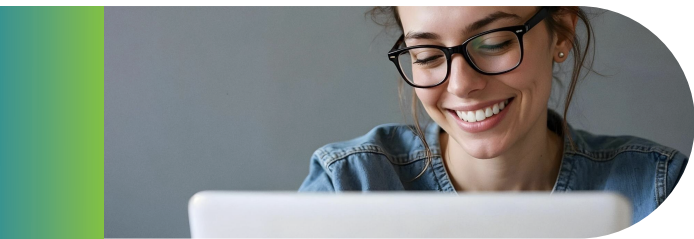

Built on proven enterprise fax infrastructure, this platform ensures consistent performance and high delivery success rates.

- ✓ Intelligent routing and automatic retries
- ✓ Proven operational stability
- ✓ Redundant infrastructure
- ✓ Dedicated technical support

Ease of Use & User Experience

Designed for rapid adoption with minimal training requirements.

- ✓ Web-based fax portal
- ✓ Email-to-Fax and Fax-to-Email Integration
- ✓ Print-to-Fax driver support
- ✓ Real-time status and delivery tracking

User Enablement

Clear workflows, intuitive interfaces, and customizable documentation help reduce support overhead.

Why Partner with MIX Networks® for Fax Solutions?

- ✓ **Trusted Expertise**
MIX Networks brings years of experience in secure communications, ensuring your fax infrastructure is built on proven technology and best practices.
- ✓ **Dedicated Partnership**
We work alongside your team to understand your unique requirements and deliver solutions tailored to your organization's needs.
- ✓ **Simplified Management**
Our fully managed approach reduces the burden on your IT staff, allowing you to focus on core business objectives while we handle the infrastructure.
- ✓ **Future-Ready Platform**
Stay ahead with a modern fax solution that integrates seamlessly with your existing workflows and scales as your organization grows.
- ✓ **Compliance Made Easy**
Navigate complex regulatory requirements with confidence. Our platform is designed to support HIPAA and other compliance frameworks.
- ✓ **Responsive Support**
Access knowledgeable technical support when you need it. Our team is committed to keeping your communications running smoothly.

Key Benefits:

- ✓ Rapid Deployment
- ✓ Proven Reliability
- ✓ HIPAA-Aligned Security Controls
- ✓ Scalable for Any Organization Size
- ✓ Expert Guidance and Support
- ✓ Flexible Deployment Models
