Streamline Communications with **UCFone+**

Optimize collaboration and video connections with UCFone+'s professional suite of tools to bring your team together from anywhere in the world.

Online Meetings

Video meeting solution with collaboration tools like screen sharing, whiteboard, meeting recording, and more.

Enterprise Messaging

Stay in touch with your team and departments using a channel mode of communication that ties in multiple ways to communicate in one centralized location.

Audio Conferencing

Crisp, clear, and high-quality audio allows for professional-sounding transmission every time, even in low-bandwidth conditions.

UCFone+ Team Messaging Workflow

Work more efficiently with people with teams of any size. Quickly fire off a message or start a group or channel for more organized chats and conversations:

Direct Messaging

- Select the plus "+" icon next to the direct messages heading to start a conversation
- Choose who you want to be part of the conversation
- Start Chatting

Channels

- Select the plus "+" icon next to the channels heading to create a new channel for your team or project.
- Give the channel a name and description
- Start Chatting

Why UCFone+?

Meet From Anywhere

Reach and connect to anyone from anywhere with UCFone+'s absolute availability, including iOS and Android.

Reliable Security

Guaranteed privacy and security, plus HIPAA and GDPR compliance. Relying only on local developers and routing through secure locations, UCFone+ also uses WebRTC technology.

Enables Remote Working

Provide an online meeting room with all the bells and whistles plus additional modes of communication via web browser and Android or iOS mobile app.

Stay Connected

Keep employees and clients informed using virtual settings and real-time communication, including SMS notifications and text chat.

Easy and Reliable Access

Fast and easy access for both remote and office workers, as well as geographically independent clients, with high-quality audio and video connections.

Efficient Teamwork

Move faster online when people and projects come together synchronously and asynchronously. By bringing the office space online, you get what you need when you need it.
