Transform Your Browser into a Powerful Business Phone with **PBX Connect**

Seamlessly Connect Your CRM, Browser, and Phone System

Stop switching between applications to make calls. **PBX Connect** Chrome Extension integrates directly with your Hosted PBX and favorite business applications, turning every phone number in your browser into a clickable connection.

The Problem

Constantly copying phone numbers, switching between CRM systems, and missing call context wastes time and opportunities.

The PBX Connect Solution:

Your Browser-Based Communication Hub

One-click calling with automatic CRM integration and intelligent call routing.

Extensive CRM Integration

Connect seamlessly with the business applications you use every day:

- **70+ Integrations** including Salesforce, NetSuite, and major CRM platforms
- **Automatic Contact Sync -** Access your CRM contacts directly from the extension
- **Call Pop Integration -** Inbound calls automatically open the matching contact record
- **Smart Tab Management -** New tabs open automatically with relevant contact information

Intelligent Calling Features

Experience advanced calling functionality designed for business productivity:

- **Connect Anywhere -** Turn any phone number on any website into a clickable call
- **Complete Call History -** Track all calls directly within the extension
- **Find Me Follow Me -** Leverage your PBX's intelligent routing features
- **Smart Call Flow -** Calls your extension first, then connects to your target number
- **Active Rule Integration -** Uses your current answering preferences automatically

Seamless PBX Integration

Direct integration with your MIX Networks Hosted PBX ensures: Enterprise-grade call quality and reliability with all the advanced features of your phone system, accessible right from your browser without additional hardware or software installations.

Ideal for professionals who need seamless communication and CRM integration:

- **Sales Teams -** Streamline prospecting and customer calls with automatic CRM integration
- **Customer Service -** Instant access to customer records with inbound call pop
- **Remote Workers -** Full PBX functionality from any location with internet access

Why PBX Connect?

PBX Connect provides direct PBX integration with comprehensive CRM connectivity, offering enterprise-grade functionality through a simple browser extension. Increase productivity by eliminating the friction between your browser, CRM, and phone system.
